Dear applicant,

After careful examination of your application, we are sorry to inform you that you were not accepted by ParisTech Schools.

The ParisTech Admission procedure is very selective, and the large number of applicants with a good academic level in accordance with our criteria forces us to offer admission only to a selection of candidates.

However, since your academic level is good, we encourage you to look into the Master programs offered by ParisTech Schools for another opportunity to come study in France.

We thank you again for your interest and wish you every success in your future studies!
